

# JOIN THE WORLD'S LARGEST CELEBRATION OF ASTRONOMY

## SATURN WATCH

It's time to welcome Saturn back to the early evening. Watch the ringed planet in all its beauty.

## SUN DAY

How does our star affect us? What do we know about the Sun? Find out during Sun Day.

## GLOBAL STAR PARTY

It's the ultimate stargazing event! As darkness sweeps the planet, amateur astronomers look to the sky in an event without borders.

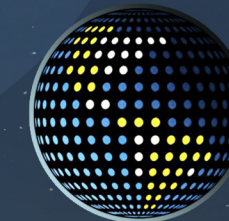

## LUNAR WEEK

A week-long series of programs, dedicated to rediscovering our closest companion in space.

## ONE STAR AT A TIME

Help preserve the night sky above you. Join this global campaign to reduce light pollution and reclaim the starry sky.

## GLOBE AT NIGHT

How dark is the night sky where you live? Find out with in this annual citizen-science campaign.

## METEORS WITHOUT BORDERS

The Lyrid Meteor Shower is one of the oldest known. Watch them fly overhead during Lyrid Watch.

## ONLINE PROGRAMS

Bad Weather? Can't leave? No problem! Join GAM's online programs: Cosmic Concert, Virtual Telescopes and more.

ASTRONOMERS  
WITHOUT BORDERS
